(54) Title: DETERGENT COMPOSITIONS WITH PERFUME COMPLEXES TO MASK MALODORS

(57) Abstract: Disclosed are detergent compositions, particularly for manual dishwashing which, by incorporating a combination of anionic surfactants, solvents and perfume complexes, results in improved detergent compositions and particularly in a liquid dishwashing detergent composition that not only provides excellent cleaning benefits, particularly on greasy and fatty soils but does not have the malodors associated with certain nitrogenous ingredients such as amines. Also disclosed are the perfume complexes themselves.
